

# The Best Just Got Better

## New Technology That Makes Floors Look Better and Last Longer

*Introducing the new  
BMR polymer technology*

# Floor Care Technology

## Extended Wear

Maximum durability, no buffing required

### Ideal for:

Schools, hospitals, nursing homes

### Premier

Durable  
Easy to apply  
Quick dry  
20% solids

### Multi-Matte

Low gloss  
Quick dry  
15% solids

All Multi-Clean finishes exceed the requirements for slip resistance established by ASTM Standard D2047.

## Versatile

Exceptional performance in any maintenance program

### Ideal for:

Schools, convenience stores, hospitals, nursing homes

### Splendor

Durable  
Levels great  
Quick dry  
19% solids

### Decade 100

High gloss  
Easy to apply  
Soil Shield  
25% solids

### Workhorse

Durable  
Quick dry  
Economical  
18% solids

## High Speed Burnish

High speed and UHS maintenance

### Ideal for:

Grocery, malls, drug stores, department, discount stores.

### Prime Shine

Great gloss  
Burnishable  
Soil Shield  
21% solids

### Max Plus

Easy to apply  
Great gloss  
30% solids

### Clear Essence

Green Seal  
Easy to apply  
20% solids

**Multi-Clean Finishes are noted for the ability to stand up to heavy commercial traffic. Now, more gloss, clarity, and exclusive BMR Technology has created a new standard of performance.**

## Multi-Clean Floor Care

BMR Polymer Technology - Black Marks and Scuffs are repelled to make floors easier to maintain.  
Soil Shield - Repells soil and dirt, maintaining maximum appearance longer.

**BMR Polymer Technology**

Each Multi-Clean floor finish is designed with the BMR Technology that repels scuffs and black heel marks. Floors become easier to maintain and look their best.

**Soil Shield Technology**

Dirt is the natural enemy of floors. Decade 100 and Prime Shine use this technology to resist dirt.

Cross section of floor tile with Soil Shield finish applied.

Cross section of floor tile with embedded dirt.

## Advances in Finishes

Simulating the impact of shoes walking on a floor, Multi-Clean chemists use a Snell Capsule to aid them in developing better finishes.

# Support Products

## Seals

Seals are designed to fill the pores of resilient tile and terrazzo floors and provide a base for floor finish.

### Acryl-Kote®

This 17% metal cross-linked seal provides a foundation for all Multi-Clean finishes.

### StainLess

This revolutionary, semi-permanent seal resists stains that penetrate normal seals and finishes.

## Maintenance Products

Cleaners and restorers are used to keep floors looking good by removing soil and keeping a high gloss appearance.

### R.S.B. Restore/Spray/Burnish

A versatile high speed restorer for mop-on or spray application. Enhances burnish response, restores brilliant gloss and fills in scratches.

### SBR Scrub-Burnish-Restore

An autoscubber restorer that cleans and preps for burnishing.

### Energize Plus

A ready-to-use spray maintainer designed for high speed burnishing to quickly restore gloss.

### Century Maintenance

Neutral pH cleaner for any floor maintenance program.

### Blue Blazes

For use as a scrub and recoat cleaner. USDA C-1.

Green Seal Product  
These products meet Green Seal™ environmental standard for industrial and institutional cleaners based on its reduced human and environmental toxicity and reduced volatile organic compound content.

## Finish Strippers

Stripping floors is a labor intensive task. Using Multi-Clean high performance strippers helps remove multiple coats of finish fast and efficiently.

### Ultra Stripper

Our strongest and safest stripper. Non-corrosive and low odor. Green Seal certified.

### Stampede

An economical, yet powerful, fast acting floor finish stripper. Low odor.

### Inferno®

The hottest stripper for fast removal of multiple layers of finish.

### Jolt

Powerful, fast acting floor finish remover that quickly penetrates and lifts multiple coats. Pre-proportioned container eliminates measuring.

## Static Dissipative

### Multi-Stat Floor Finish

This static control floor finish is designed for areas where a glossy, durable finish is desired and harmful static electricity cannot be tolerated. Disapates static electricity when used as directed.
