

Crete-Guard

Polished Concrete Protector/Grout Seal

Enhanced Protection

Crete-Guard is a water and oil repellent stain protector for polished concrete and grout. Unique additives penetrate the pores of the concrete or grout and develop a non-film-forming seal that protects the surface from oils and water. Stains are unable to penetrate the surface and are more easily washed away, leaving the floor looking cleaner, longer.

Versatile & Easy to Apply

Crete-Guard can be mopped or sprayed on and then rinsed with water. Apply one coat for standard protection or two coats for high traffic areas. Crete-Guard is compatible with most floor cleaners, and won't be worn away during cleaning.

Crete-Guard does not affect gloss or slip of floor surfaces.

Crete-Guard is great for use on polished concrete or grout in retail stores, hotels, schools, kitchens, restrooms, warehouses, or anywhere else protection is needed.

When to Apply

Crete-Guard should be initially applied when the concrete is fresh and clean, and every year thereafter. When reapplying, preparation instructions should be followed to remove any residual soils and contaminants.

Safe for Use on Concrete.

Properties

Appearance Blue liquid
pH 8 - 9
Specific Gravity 1.0
Flashpoint None
Use Dilution: Do not dilute
Foamability Low
Coverage 1250 sq ft/gal
VOC 0
Freeze/thaw Stability.. Passes 3 cycles
Storage Stability Excellent, 1 year normal conditions.

VOC Compliant - VOC Free

Packaging

Size - Part No.
Half Gallon 909352

600 Cardigan Road
Shoreview, Minnesota
