

Foamy MAC[®]

Foaming Restroom Cleaner

Foamy MAC (Mild Acid Cleaner) Foaming Restroom Cleaner is an advanced foaming cleaner formulated to cling to surfaces when sprayed with a foaming trigger sprayer or a foam gun. Foamy MAC will clean soap scum, mineral deposits, lime or grease off of all acid resistant surfaces including: ceramic tiles, grout, drinking fountains, steam tables, wash basins, shower stalls and bathtubs. Safe for use on chrome fixtures.

Safe to work with

Contains a low pH Organic Salt which is non-corrosive to skin, yet is more effective than phosphoric acid, citric acid, sulfamic acid or acetic acid for removing mineral deposits, soap scum or rust stains.

Directions

Always dilute with cold water. For daily restroom cleaning dilute at 1:16 (8 oz/gal, 60 mL/L). For removal of heavy mineral deposits dilute at 1:8 (16 oz/gal, 120 mL/L). Let sit for a few minutes to dissolve mineral deposits, soap scum, rust stains, dirt and grime. Use a brush, if needed, for heavy deposits. Rinse thoroughly with fresh water.

Do not use with any other chemicals, especially bleach, ammonia or alkaline cleaners. Do not use on marble, terrazzo or natural stone.

Environmentally Responsible

FOAMY MAC contains biodegradable surfactants, acid safe technology, and is not formulated with VOC's, butyl, petroleum derived solvents, NPE's or phosphates.

This product meets the Green Seal™ Standard for Cleaning Products for Industrial and Institutional Use, GS-37, based on its reduced human and environmental toxicity and reduced volatile organic compound content.

Use good safety practices: wear rubber gloves & safety goggles when handling cleaning products.

Disposal: Waste from normal cleaning procedures may be sewered, depending on the materials and/or contaminants being cleaned as well as state, federal and local sewer commission regulations.

Please Recycle
HDPE bottles.

Please recycle container. When
container is empty, remove bag
and flatten box for recycling.
