

Inferno[®]

Maximum Productivity Stripper

Inferno is designed to maximize stripping speed and efficiency by utilizing a blend of active solvents, emulsifiers, and “uncrosslinking” agents. Inferno works fast and gets floors stripped completely the first time saving time, money and frustration!

High Level of Actives

- Over 40% actives attack, penetrate and emulsify multiple coats of floor finish.
- Remains fluid for easy pick-up, won't dry out or become gummy.
- Great for autoscrub stripping, practically zero foam.
- Even works on semi-permanent seals, and heavily burnished finishes.
- Pleasant Sassafras (root beer) fragrance
- Use on terrazzo, vinyl composition, vinyl, concrete floors.

Directions:

1. For heavier build-up use 1 part INFERNO to 2-4 parts cool water.
For light to medium build-up, use 1 part INFERNO to 12parts water.
2. Apply to a manageable area. (Caution: treated areas may become slippery).
3. Allow solution to react for 5 to 10 minutes - DO NOT ALLOW SOLUTION TO DRY ON FLOOR. Scrub with a floor machine or autoscrubber equipped with stripping pads. Doodle Bug around edges, etc.
4. Pick up spent solution with wet/dry vacuum or automatic scrubber. Rinse with plain water or 1 oz./gal. “BACK TO 7” as a rinse aid.

Warning: Not for use on linoleum, asphalt tile or rubber tile floors. Wear water repellent/slip resistant footwear. Wear rubber gloves and safety eyewear to prevent skin/eye contact when using by hand.

Ventilate enclosed areas to prevent excessive exposure to vapors.
