Bio-Enzymatic Metering Pumps

Bio-Pump AC

Bio-Pump DC

The Bio-Pump delivers enzymatic digester products for drain, deodorizing and special applications where timed dosing is needed. A compact design chemical dispenser with a programmable timer designed primarily for dispensing chemicals into drains. Its most clear intended use is for drain applications when a degreaser is needed in the drain daily, or every other day. The timer is programmable to run up to 8 events that can be set for a specified amount of time to run the pump.
