

# Enzy-Clean

## Bio-Enzymatic Floor Degreaser with BioZyme™

Enzy-Clean is a biological and enzymatic floor degreaser. It contains a synergistic blend of natural microorganisms that releases enzymes to consume and break down food, grease, and organic material.

Greasy Kitchen Floors are no match for Enzy-Clean

**Better:** Enzy-Clean contains BioZyme™, a unique blend of microbes and cultivated enzymes that attack and disperse greases and oils in food service environments. The microbial action helps keep drains flowing and counteracts foul odors.

**Faster:** Enzy-Clean works quickly to break down fats and oils. Enzy-Clean with BioZyme continues to break down grease and oil after the cleaning is done.

**Safer:** Enzy-Clean replaces corrosive floor degreasers making the product safer for workers. Regular use of Enzy-Clean can help reduce slip and falls. Enzy-Clean is non-hazardous.

Nonfood Compounds  
Program Listed A4  
153690

BioZyme™ is a synergistic blend of enzymes and active microbes. The enzymes produce immediate action by attacking fats and oils. The active microbes offer extended cleaning while counteracting odors and keeping drain lines flowing.

### Enzy-Clean 1-2-3 Method

Dilute Enzy-Clean with cool water.

**1. Apply:** Enzy-Clean Solution

**2. Agitate:** Use a deck brush or floor machine with a brush.

**3. Squeegee:** Push excess solution into floor drain.

### Properties

Appearance .....	Clear, hazy
pH .....	8 - 9
Specific Gravity .....	1.00
Enzymes Produced .....	Cellulase, Protease, Amylase, Lipase, Urease
Dilution .....	4 oz. per cold gallon
Foam .....	Moderate
Hard Water Tolerance .....	Excellent
Rinsability .....	Excellent
Storage Temperature .....	40°F - 60°F (4° - 15°C)
Storage Stability .....	1 year under normal conditions
Freeze-Thaw Stability .....	Passes three cycles
VOC Compliant .....	VOC Free
Flash point .....	None

### Packaging

1 Gallon 910883
