

Triple Play

3 in 1 Bio-Enzymatic Cleaner

Triple Play is a multi-functional cleaner fortified with enzymes and microbes to counteract malodors in carpet. Triple Play was designed with three different carpet cleaning tasks in mind:

Extraction (2 oz/gallon)

Triple Play uses low-foam surfactant technology to effectively clean and destroy odors in carpet. Triple Play also contains enzymes and microbes that are left deep in the carpet fibers to provide residual cleaning and deodorizing after extraction is completed. These microbes also enter your extractor's recovery tank and help to prevent odor buildup in equipment.

Pre-Spray & Bonnet (16 oz/gallon)

Along with its enzyme-producing microbes, Triple Play also contains additional enzymes and solvents that provide quick and effective emulsification of soils. This makes Triple Play effective as a carpet pre-spray prior to extraction. Pre-spraying with Triple Play allows the microbes and enzymes the time to effectively break down soils so they can be more easily extracted.

Spotting (Straight)

Triple Play's combination of low-foam surfactant technology, enzyme fortification, and water-soluble solvents make it a superb carpet spotter. Use Triple Play straight on tough spots like urine, food, dairy, blood, vomit, and sweat.

Cleans Deodorizes Consumes

Properties

Appearance	Turquoise liquid.
Scent	Fresh & Clean
pH	9 - 10
Dilution.....	Extraction – 2 oz/gal Pre-Spray / Bonnet – 16 oz/gal Carpet Spotting – Use straight
Flash Point.....	None
Hardwater Tolerance	Excellent
Biodegradable	Yes
Storage Stability	Excellent, 1 year normal conditions
Freeze-Thaw Stability.....	Will freeze. Usable after thawing and agitation. Check for settled material.
VOC Compliance	EPA, CA, IL, IN, MI, OH, OTC, UT, and Canadian regulations.

Use to clean Upholstery

Triple Play can also be used to deep clean upholstery. Use on fabrics that are rated for water-based cleaners. NOTE: Some upholstery fabrics are not water washable. Test in an inconspicuous area first.
