

# Dilution Control Systems

# Sanitation Station Model 421331

Wall mounted, high volume washing, foaming, and or sanitizing proportioner with two product eductors.

Multi-Clean manufactures quality proportioning equipment. Please use this equipment carefully and observe all warnings and cautions.

**Note:**

Wear protective clothing and eyewear when dispensing chemicals. Always observe safety and handling instructions on product bottle or SDS. Always direct discharge away from you or other persons or into approved container. Clean equipment after each use. Attach only to tap water outlets not exceeding 140°F and 85 PSI maximum.

Package includes:	Installation must conform to local plumbing codes and use approved backflow prevention devices.
Complete wall mount unit.	Unit is not equipped with backflow preventer. Make sure there an approved backflow device up stream of this unit.
2 vinyl draw tubes.	
2 cap-hose assemblies.	
1 metering tip kit.	
4 anchors with screws.	
1 hose hanger	

Instructions for operation:

1. Attach hose hanger to bottom of unit.
2. Attach unit to wall using hardware supplied using 9/32" drill bit.
3. Select metering tip for each product and press firmly into hose barb on each eductor side.
4. Install product draw tube to hose barbs.
5. Connect 3/4" water inlet hose.
6. Connect 3/4" discharge hose to bottom of unit.
7. Turn water supply on to unit. 25 PSI required.
8. Turn product valve to ON position to begin dispensing. Only one product can be dispensed at a time.

Refer to Food Sanitation Method Bulletin 1427 for complete application instructions online at [www.multi-clean.com](http://www.multi-clean.com).
