Neutra-Zyme

Neutral pH 7
Non-alkaline formula helps retain high gloss on finished floors. Simply the best cleaner for UHS programs.

Surface Safe
Use on VCT, vinyl, rubber, laminate, sealed wood, marble, grouted tile, and natural stone floors.

Bio-Zyme
Neutra-Zyme is fortified with Bio-Zyme, a proprietary blend of bacterial spores that provide superior cleaning power, both immediate and residual. The enzymes produced provide immediate consumption and neutralization of soils, while the bacterial spores remain on the surface and provide residual cleaning long after the cleaning is done.

Neutral Cleaner with Bio-Zyme

Multi-Task Dispensing System
The unique patented Multi-Task container gives you dilution flexibility.

Secure Dispensing
Accurately dispenses two or more products from the Multi-Task wall mount dispenser at the touch of a button.

Squeeze and Pour
No equipment required. Simply squeeze the container to measure the desired amount.

Easy-Fill Gun
Dilutes product at 2.5GPM into RTU container, mop bucket or autoscrubber.

The Wave II
No Touch Cleaning of restrooms made simple. Battery powered.

E-Spray Gun
Electrostatic sprayer

This product meets Green Seal™ Standard GS-37 based on effective performance, concentrated volume, minimized/recycled packaging and protective limits on: VOCs and human & environmental toxicity. GreenSeal.org.

**Packaging**

- 4 x 2 liter Bottles
- 908652

**Directions**

Scrub or damp mop floor. Use also as a rinse aid during the stripping operation as the final rinse. Note: Always dilute with cold water.

**Personal Protective Equipment:**
- Eye Protection: Approved Safety Goggles or Glasses.
- Respiratory Protection: If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn.

**Quick Guide**

**Dilution**

- 1:256 with cold water

**Uses**

For scrubbing or damp mopping floors

**Surfaces**

- Ceramic tile, VCT, rubber, terrazzo, concrete.

**Equipment**

- Mop, sponge, micro fiber, brush, cloth.

**Restrictions**

- Not be used in patient areas of hospitals and that immune-compromised individuals should avoid exposure to products containing microorganisms from both direct use and incidental contact during or shortly after application to these products, especially when the treated areas are still wet. Contact with open cuts or sores should be avoided. Wash hands after using this product. Microorganisms may not be effective in the presence of antimicrobial agents such as chlorine bleach. Do not use on food-contact surface and should not be sprayed directly into the air.

**Disposal:**

Waste from normal cleaning procedures may be sewered, depending on the materials and/or contaminants being cleaned as well as state, federal and local sewer commission regulations.
