

# JOLT Stripper Booster

## Improves Performance of Strippers

### A Powerful Stripper

JOLT can be used by itself as a pre-proportioned stripper or as a performance booster for all types of conventional strippers. Simply add 1 quart of JOLT per mop bucket to effectively remove all types of floor finish safely and effectively.

### Boost Stripper Performance

Adding 1 quart of JOLT per mop bucket of conventional stripper solutions will dramatically increase stripping performance and reduce labor costs. Many strippers simply don't have the strength to remove heavy floor finish buildups or frequently burnished films. Using JOLT helps eliminate re-strips and use of excessive labor to produce acceptable results.

### Low Odor and Safer

Jolt works great by itself as a stripper for low to moderate build-up of finish. JOLT is extremely low odor and less corrosive than most conventional caustic strippers. Because it doesn't contain caustics, neutralizing or excessive rinsing after using JOLT is not required.

### Quick Dilute System

Jolt-Stripper is diluted one quart with 2 to 4 gallons of water in a mop bucket for stripping finishes.

**WARNING:** Wear water repellent/slip resistant footwear. Wear rubber gloves to prevent skin contact when using by hand. Do not use on Asphalt Tile.

### Properties

Appearance .....Amber Liquid  
 % Active.....90%  
 pH (Conc.) ..... 10-11  
 DOT Shipping .....Compound, Cleaning Liquid, N.O.I.  
 Storage Stability ..... 1 year under normal conditions
