M-C 10 Sanitizer

Food Service and Meatroom Sanitation

M-C 10 SANITIZER is a highly effective no-rinse sanitizer recommended in all phases of food processing and in food service.

When washing countertops, display equipment, food processing equipment, refrigerated storage equipment, ice machines and other hard surfaces, it is recommended that the equipment first be cleaned/degreased with Multi-Clean H.D. HI-FOAM (USDA Classification A-1).

After rinsing with potable water, M-C 10 SANITIZER is then used to sanitize the surface. It may be applied by cloth, brush or sprayer. The surface is then left to air dry. This method ensures proper cleaning and sanitizing.
