Veterinary Care Facilities

- Proven System
- Field Support
- Cost Savings
- Training
- Regulatory Requirements
Maintaining a clean, safe and healthy environment is essential to providing good care to animals, and we provide a comprehensive array of veterinary cleaning supplies specially engineered for animal facilities, including clinics and boarding establishments.

Our Animal Care Sanitation Program includes powerful cleaners, deodorizers, virucides, floor cleaners and disinfectants that are necessary for a successful sanitation program. The comprehensive program addresses the three most important aspects of a comprehensive cleaning program -- Odor Control, Infection Control and General Housekeeping -- in order to make your facility cleaner and healthier for your animals, staff and visitors.

Animal Care Sanitation Program features...

- Economical products
- Effective products and cleaning systems.
- Local availability through dealers
- Safer for people and animals (less toxic than bleach and phenolics!)

**Microcide TB** - Ready to Use Disinfectant, Cleaner, & Virucide

A ready to use product that cleans and disinfects surfaces in one step. Formulated to disinfect hard, non-porous plastic, and inanimate environmental surfaces. Classified as an intermediate level disinfectant effective on animal pathogens including Canine Parvovirus, Feline Calicivirus and Rabies Virus. Use on kennels, exam tables, and other critical surfaces.

Where to Use: Use on walls, tables, chairs, exam tables, cages/kennels, feeding equipment, etc. Available in quart and one gallon.

**64 Millennium Q** - Multi-Use One Step Cleaner Disinfectant

Multi-purpose disinfectant and restroom cleaner. Use at 2 oz/gal (1:64) for one step cleaning and disinfecting hard surfaces including sinks, faucets, door handles, and counter tops. Effective on a broad range of pathogens including Canine Parvovirus, Feline Calicivirus, and Canine Influenza.

Where to Use: On any hard, non-porous surface. Available in 2 liter and one gallon.

**256 Century Q** - Disinfectant Cleaner, Deodorizer and Virucide

A no-rinse, neutral pH, hospital disinfectant cleaner. 256 Century Q is efficacious against Feline Leukemia and Rabies Virus. With a dilution rate of 1/2oz/gal (1:256), Century Q is formulated for daily disinfecting and cleaning of high touch environmental surfaces in veterinary facilities.

Where to Use: On floors, walls, tables, chairs, exam tables, feeding equipment, etc. Available in 2 liter and one gallon.

**Fresh 100** - Disinfectant Bowl Cleaner

A ready to use disinfectant cleaner. Non-acidic formula cleans, kills germs, and destroys odors. Great fresh fragrance leaves restroom looking and smelling clean.

Where to Use: For everyday cleaning of toilet bowls, urinals and other restroom surfaces. Available in quart and 5 gallon.

**Century Q Wipes** - Disinfectant Wipes

Cleans and Disinfects Century Q Wipes are no-rinse, hospital grade disinfectant wiper that disinfects, cleans and deodorizes in one labor-saving step. Use on all non-porous environmental surfaces that require disinfecting. Animal Pathogens Effective against, Avian Influenza A H5N1 and H3N2 virus, Canine Distemper virus, Newcastle’s disease virus, Pseudorabies virus.

**128 E-FECTicide** - Disinfectant Cleaner

No-rinse, neutral pH, hospital disinfectant cleaner. 128 E-FECTicide is efficacious against Canine Parvovirus. With a dilution rate of 8 oz/gallon (1:128), E-Fecticide is formulated for daily disinfecting and cleaning of high touch environmental surfaces in veterinary facilities. Available in 2 liter bottles.
Bio-Power - Urine Odor Remover and Drain Maintainer

Bio-Power is a multi-purpose biological digester odor counteractant. It is an excellent carpet stain and odor neutralizer, breaking down and consuming urine stains and their resulting malodors. Use on all types of carpet where pet stains or urine odors are a problem. Will not harm carpeting.

Where to Use: Anywhere foul odors are an issue, including garbage cans, dumpsters, etc. Use as a drain maintainer to prevent drain build ups and foul odors. Also use on porous flooring surfaces including concrete and grouted tile to help removed deeply embedded odors.

Available in quart, 1 gallon and 5 gallon.

Tough Green - All Purpose Cleaner-Degreaser

Formulated to provide powerful cleaning and degreasing without compromising safety for the user or the environment. Mix at 1 oz. per gallon, has a great citrus-floral scent. Tough Green is a biodegradable product that meets or exceeds the toughest environmental performance standards. It is non-corrosive, contains no phosphorus, carcinogens, or reproductive toxins. Certified Green Product.

Where to Use: Mop entry way floors, lab and exam room floors/walls, as well wash countertops, desks or table tops. Available in 1 gallon and 5 gallon.

Magico - All Purpose Deodorizing Cleaner

A concentrated, all-purpose product that both cleans and deodorizes in a single step. Leaves a lasting fresh lavender scent to make areas smell pleasant and clean. Non-dulling for all high gloss floors, and offers rinse-free performance.

Where to Use: Mixed at 1 oz. per gallon, it is great in mop buckets and scrubbers for entry ways, lobbies, labs, exam rooms, hallways, and bathrooms. Magico can also be mixed for spray bottles at 1-2 oz. per gallon for general cleaning of walls, countertops, and many other non-porous, washable surfaces.

Available in 2 liter and 1 gallon.

Foamy MAC - Restroom, Tub and Tile Cleaner

An advanced foaming restroom cleaner formulated to cling to surfaces when sprayed with a foaming trigger sprayer. Use straight or dilute. Contains an organic acid salt which is non-corrosive to skin, yet is just as effective as strong acids. Foamy MAC is great for general restroom cleaning, cage wash downs and animal bathing areas. Effectively removes soap scum, water spots, mineral deposits, and lime from all acid resistant surfaces including: ceramic tiles, grout, chrome, drinking fountains, wash basins, and shower stalls. Certified Green Product.

Available in quart, 2 liter, 1 gallon, and 5 gallon.

E-Spray Electrostatic Sprayers
Disinfect • Sanitize • Odor Control

A Systems Approach
Electrostatic spray technology is providing innovative new methods to apply Multi-Clean brand disinfectants, sanitizers, and odor counteractants to a variety of surfaces. The E-Spray method helps insure fast coverage of complex and hard to reach surfaces that could be easily missed.

Validation and Compliance
Multi-Clean has tested and validated its line of EPA registered disinfectants and sanitizers to insure that activity levels remain constant before and after using the E-Spray Gun. Each E-Spray Gun is supplied with appropriate secondary container labels to affix to the E-Spray Gun container to insure OSHA compliance.

Liquid Adhesion
The electrostatic positive charge inserted into the droplet enables the droplet to adhere itself to the surface via the cationic charge. As the droplets hit the surface they create an even spread because they hold their cationic charge for approximately 2 -3 seconds therefore not creating drips as two positive charges will repel from each other.

Dwell Time
The E-Spray Gun enables water based RTU solutions to meet their dwell time, therefore ensuring that the solution works to its full capabilities. The 3 way nozzle can be used to change the amount of solution applied which, in turn enables the time you would like the surface to remain wet.

Electrostatic Wrapping
When you spray a solution that is charged with electrostatics, the solution will envelop the target. When spraying, static charge stays with the solution for up to five feet.

Gun Features
• 16.8 Volt Lithium-Ion Battery Allows 4 Hours of Run Time.
• Portable - 3.8lbs. empty (6lbs with tank full)
• 3 in 1 Adjustable Nozzle 40, 80, and 110 micron orifices.
• Quiet — Suitable For Use In Any Environment.
• Removable Tank Holds 33.8oz. Of RTU Liquid.
• Flow rates 2.7, 3.5, 11.2 oz per minute
• Tanks per charge 18, 24, 80
• Deluxe Carrying Case
• Great for Sanitizing, Disinfecting, and Odor Control Item number 421600

Backpack Features
• 16.8 Volt Lithium-Ion Battery Allows 4 Hours of Run Time.
• Lightweight - 10lbs. empty (28lbs with tank full)
• 3 in 1 Adjustable Nozzle 40, 80, and 110 micron orifices.
• Quiet — Suitable For Use In Any Environment.
• Tank Holds 2.25 gallons of RTU Liquid.
• Flow rates 2.7, 3.5, 11.2 oz per minute
• Time to empty 107, 82, 26 minutes
• Great for Sanitizing, Disinfecting, and Odor Control Item number 421650

The electrostatic positive charge inserted into the droplet enables the droplet to adhere itself to the surface via the cationic charge.
