Introduction

For nearly 73 years Multi-Clean has been developing and manufacturing high performance cleaning and floor maintenance products for commercial facilities.

Our Mission
Multi-Clean partners with distributors to help customers clean better, faster, and safer.

Dealers Make a Difference
At Multi-Clean, we strongly believe the best way to purchase our products is through our authorized distributor partners. Why? The answer is simple.....SERVICE. Whether you need product fast, require assistance with training, or need help solving a problem, Multi-Clean distributors are there to help. Our authorized distributors are supported by Multi-Clean’s factory technical support, field representatives and a full arsenal of educational and support tools.

Research and Development
New technologies help us produce products that work better, are safer, and minimize environmental impacts. Multi-Clean chemists are responsible for developing a steady stream of new and innovative products to help make facilities healthy and clean. In our modern product development laboratory, chemists develop and test new products for optimal field performance.

Quality You Can Count On
Multi-Clean operates a state of the art production facility in Shoreview, Minnesota. The quality control department insures consistent and reliable performance by testing each batch of product for conformance to standards. Each container is individually coded for traceability. Multi-Clean offers packaging that is both attractive and functional to project our image of quality and reliability.
**CLEAN BETTER**
Multi-Clean brand products are designed for performance. We continue to develop innovative cleaning solutions that help standardize processes and consolidate products to reduce cleaning costs.

**CLEAN FASTER**
Finding ways to increase productivity is an absolute necessity. Combining products with training and education is why the Multi-Clean brand has been trusted by maintenance professionals since 1946.

**CLEAN SAFER**
Multi-Clean offers a line of green certified products combined with education and advocacy that promotes a safer and healthier environment. It is important to educate the public on the value of cleaning.

**Markets**
Multi-Clean products are used in healthcare, educational facilities, office buildings, food service, hospitality, commercial, industrial and retail facilities. A variety of specialty products and programs are available that target these key markets. Our products are also extensively used by Building Service Contractors to keep facilities healthy and clean.

Electrostatic

A Systems Approach
Electrostatic spray technology is providing innovative new methods to apply Multi-Clean brand disinfectants, sanitizers, and odor counteractants to a variety of surfaces. The E-Spray method helps insure fast coverage of complex and hard to reach surfaces that could be easily missed.

Validation and Compliance
Multi-Clean has tested and validated its line of EPA registered disinfectants and sanitizers to insure that activity levels remain constant before and after using the E-Spray System. Each E-Spray unit is supplied with appropriate secondary container labels to affix to the E-Spray tank container to insure OSHA compliance.

Electrostatic Wrapping
When spraying a solution that is charged using electrostatic technology, the solution will envelop the target. When spraying, static charge stays with the solution for up to five feet.

Products for Use in the E-Spray Equipment
