

What we learned in 2020

CLEANING IS ESSENTIAL: Our theme for this year is simple, Cleaning is an ESSENTIAL operation in any organization that wants to keep customers, employees, students, & staff safe.

The Pandemic has brightened the future of the cleaning industry: Finally, the public has learned that cleanliness of a facility is linked to their own health. That isn't going away when the pandemic is in the rear view mirror.

Promoting Clean is Good for Business!

Never would we have expected that restaurants, airlines, retailers, and many other businesses would publish and promote the steps they are doing to keep facilities safe and sanitary. Businesses now know what we have always known, cleanliness is good for business.

Building Trust with customers builds loyalty: Despite frustrations with material shortages and long lead times, Multi-Clean distributors helped us weather the storm. We believe that if you build trust with a customer, chances are they will stick with you through thick and thin. We are grateful for our dealer loyalty.

Thankful we are in the cleaning industry: While there has been much suffering in this pandemic, deaths, unemployment, business closings and more, the cleaning industry has bloomed and looks to continue to have a bright future. We can all be proud that we produce or distribute products to fight the pandemic and help keep people safe. Cleaning truly is ESSENTIAL!

PP-Gone is a Hit!

Urine odors are some of the most recognizable foul odors that cleaning staffs have to deal with. Why? The water thin consistency of urine allows it to penetrate deep into porous surfaces where odor causing bacteria can feed on the residue unchecked. Carpets, upholstery, mattresses, grouted tile, restrooms, etc all represent difficult urine odor challenges, but PP-Gone can destroy those odors.

Compare Multi-Clean PP-Gone to Clorox Urine Remover. We have the product in stock NOW!

Learn how to use PP-Gone to destroy urine odors

Multi-Clean PP-GONE = Clorox Urine Remover

Better Value: 1-12 quart case of PP-Gone is about the same price as a 9 quart case of Clorox Urine Remover.
