

DILUTION & DISPENSING SYSTEM QUICK INSTALL SET UP

Safe - Effective - Sustainable

Since
1946

QUADFILL

The DuoFill dispenser accurately dilutes Multi-Task chemical concentrates with water and dispenses the diluted mixture at 2.5 GPM to fill buckets and scrubbers or small containers. This dispenser is great for use in janitorial services in restaurants, schools, offices, industrial sites, and other applications with multiple configurations and minimal service requirements.

The sleek two-tone grey colors complement any environment. This dispenser is exceptionally easy to set up with a quick connect manifold and water inlet fitting, and a built-in bubble level.

Use this dispenser at your workplace to easily refill bottles or buckets with housekeeping chemicals!

Properties:

- ▶▶ Flo Rite technology for consistent dilutions (action gap)
- ▶▶ Quick connect manifold and water inlet fitting
- ▶▶ 2 Liter chemical cabinets
- ▶▶ Designated color coded product label sheet
- ▶▶ Push button cover release with optional security screw
